1966 EAGLE

The school year 1965-1966 was busy and active for DeLand-Weldon students. Classes, athletic events, dances, and meetings, all helped to round out "the year that was." We have tried to pick some of the bright spots that stand out in our minds as important events in the history of DeLand-Weldon Senior High School; and with this in mind, we present to you your "1966 EAGLE".

THAT WAS THE YEAR THAT WAS

"THAT WAS THE YEAR THAT WAS" will forever remind us of the students, faculty, and school activities brought to life on the D.W.H.S. TV SCREEN.

D.W.H.S. is the channel to which we tune for the best in learning, lifelong friends, entertainment, teachers, and the training for the future.

So that you may never completely forget the memories of the 1965-66 school year the "EAGLE" has pictured for you the events that highlighted "THE YEAR THAT WAS"

Dedication

In memory and recognition of six years of fine teaching at D-W, the Senior Class dedicates the '66 Eagle to William E. Scroggs.

He gave to each student small bits of his philosophy through the quotations and poems he so often repeated. In addition to teaching science, he sponsored our class during its Junior year and faithfully attended each athletic contest.

This dedication is our way of expressing our gratitude and sincere appreciation for all that he has done as a teacher and friend.

. . . Everyone Worked Together to
Make D.W.H.S. a Better School.

... The Superintendent Strived for Higher Goals in Learning.

The superintendent is the "top man" in the school system. Not only does he have to coordinate four schools, but he also must gain an insight into what each school's needs are. Because of this need for insight, we often find Mr. Salmon at our school. At special assemblies, he is asked to explain the administration's or the school board's policy on a particular subject.

Every once in a while, a teacher will find Mr. Salmon popping into his class to see how he is getting along. Here at the high school we see a lot of Mr. Salmon.

Mr. Salmon's secretary, Mrs. Marie White, is an indispensable help to the unit and is pictured with him.

Mr. Salmon relaxes at home with his family.

. . . The Principal's Principles Were Achieved

One of the busiest and most hardworking faculty members in our school is the PRINCIPAL. His job requires a lot of time, patience, and ingenuity. Mr. Prather is the man who handles the "headaches" and other problems that arise throughout the school year. He teaches American Problems and Economics.

Mrs. Esther Floyd, Mr. Prather's secretary, is the most hardworking and busiest non-faculty member in our school.

Principal, teacher, and ticket taker?

In Appreciation

The EAGLE staff of 1966 dedicates this year-book page to you--Mrs. Johnson for the three years you have helped the yearbook staff realize the true meaning of responsibility and accept it. We regard you not only as an understanding teacher but also as a friend who will long be remembered.

And we dedicate it to you--Mr. Essig; you have been more than a teacher of social science at our school and will always be remembered as counselor, cupid, coach, and "Chief" to many students.

These two faculty members, one the tallest and one the shortest, have met eye to eye with their students in helping them gain an education.

. . . That Eagles Won

As the fired-up Eagle team raced onto the field, the crowd screamed for another Homecoming victory. The Farmer City Farmers bit off more than they could chew in their attempt to beat the inspired Eagles on Homecoming night. The Eagle effort was rewarded by a large dance and the crowning of the Homecoming Queen, Connie Leischner, and King, Gary Roy.

Under the guidance of the coaches, the cheer-leading sponsor, and the managers, the athletic program of DeLand-Weldon was quite successful this year.

Mr. Dobbs, Mr. Essig, and Wendy Brock, the varsity's student trainer, inspired the football team to fight and capture second place in the conference.

Mr. Bader, who was in his first year as the coach of his own team, with Wendy Brock, George Wisegarver, and Jerry Brock as managers, led the varsity ball club to a winning season.

Mrs. Trigg, the cheerleading sponsor, supervised the ten girls who so faithfully cheered their team on to victory at every basketball and football game. Each one of these leaders help stress the importance and benefit of good sportsmanship.

. . . That Many New Classes

Were Added

Working with Math can be lots of fun. In a real sense, Mathematics is the means of communications we use to show exact meanings. In the Freshman Practical Math and Algebra I classes students are taught the fundamentals of Math. Geometry, the study of two sided figures, is taught to the Sophomores, while still more advanced subjects of Algebra II and Trigonometry are taught in the Junior and Senior classes. Seniors also study Probability, Solid Geometry, and Analytic Geometry, Math serves a useful purpose while providing fun and adventure in numbers.

Mathematics

Social Studies

History has much to teach us, both of the past and in reference to the future. The World History class rediscovers ancient history and proceeds throughout much of the twentieth century. The American History class, is concerned with America's historical background, the first settlements, the first colonies, religion, and founders of our nation. Government and political background are brought out in the American Problems class. They study the state constitution, the United States Constitution and other matters concerning America's struggle to bring about changes in American life. The Sociology class is concerned with the problems, life, and customs of the different peoples of the world.

The students at D.W.H.S. dedicate this yearbook page in memory of Donald W. Moody, a teacher who was esteemed and respected by the many students he guided and inspired.

God hath not promised
Skies always blue,
Flower-strewn pathways
All our lives through
God hath not promised
Sun without rain,
Joy without sorrow,
Peace without pain.
But God hath promised
Strength for the day,
Rest for the labor,
Light for the way.
Grace for the trials,
Help from above,
Unfailing sympathy
Undying love...

In Memoriam

English and French

Parlez-vous français? Oui, nous parlons le français. In the French I class, the students are taught the basic fundamentals of both the oral and written language. The emphasis is on laying a vocabulary and grammar foundation and on developing audio-oral skills through use of a language-tape program. Dialogues, lectures, French songs, games, and stories are just a few of the materials used. The French II class builds upon the foundation laid the previous year and emphasizes reading and writing skills. Additional materials, including some used in French I, are outside readings, French newspapers, magazines, and cross word puzzles. In both classes, the students learn about the French people and their culture.

English as communication whether it be listening, reading, speaking, or writing increases in importance every day. The emphasis in the Freshman class is to develop skills needed to write a paragraph, to give an elementary speech, and to learn how to listen. Literature is used to develop the other areas of communication. The Sophomore class learns the basic elements of grammar and usage in conjunction with speaking and writing. The Juniors find the study of English to be a little more advanced as they learn the grammatical techniques of writing themes and research papers. American literature is correlated with American history to show the progression of literature in our country. College preparatory English reviews the last two years of grammar and covers the historical and literary record of English literature while Business English stresses the English skills needed for the business world. While not all the classes in English emphasize the same things, they all work to develop and improve communication.

Business

The business world of today is a challenging field. In preparing for this career, D-W offers courses in Shorthand I and II, office practice, typing, bookkeeping, general business, and business English. The shorthand class set a goal of 120 words a minute for five minutes. The girls have been rewarded for their ability by earning various Gregg Awards. Shorthand II emphasizes transcription of notes into mailable copy.

Typing, like shorthand, emphasizes accuracy and speed in production of perfect mailable papers. A speed-way race is set up in the typing classes and each student tries to surpass his own time as well as those of others by typing more words per minute for five minutes with only four errors. Over 35 words per minute is passing and some have typed over 60, and as accurately as 40 and 50 wpm with no errors.

The aim of the bookkeeping course is to develop a desire to keep records for personal use, and to train some "would-be" bookkeepers. In the class, each student acts bookkeeper for a firm.

Science

As the scientists at Cape Kennedy were working on advanced Gemini plans for outer space, Mr. Scroggs at DeLand-Weldon was teaching his general science classes the fundamentals of outer space transportation.

With open ears and eager minds, the juniors in chemistry listened as they were told how two parts hydrogen combine with one part oxygen to form water.

In physics these nine "advanced" scientists tackled the problems of heat, sound, light, magnetism and electricity, and the behavior of molecules.

Next door Mr. Erickson's biology classes were learning orders and phyla of many of the animals. They gathered insects and made a collection of the common and unusual insects of our community.

Home Ec. and FHA

The Future Homemakers began the year well, "Towards New Horizons" when 40 members attended the fall FHA rally. At this rally they participated in group discussions, general assemblies, and skits. They returned home with new ideas such as Western Round-up and Christmas caroling. The year was completed with a trip.

Have you yet mastered the art of baking a cake, or sewing on a button? These are but two of the new and different tasks the Home Ec girls acquaint themselves with throughout the year. Actual training, combined with the guidance and "know-how" of things are the primary measure for the prospective homemakers.

GAA

A new organization introduced this year was the Girls' Athletic Association. The purpose of this club is to promote and encourage high school girls in participating in a variety of sports and related activities.

At the beginning of the school year, after officers, dues, and a GAA Constitution were established, the forty-three members agreed to send the newly elected officers and the club's sponsor to Mt. Carmel for a state GAA meeting. The ideas and suggestions received at this meeting were put into practice. The club was then able to form a well-rounded weekly schedule of games and various activities. The sports and activities the girls participated in this year were: archery, girls basketball, swimming, bowling, baseball, a three-mile hike, a weiner roast, a GAA Fun Night, and a sock hop. The club also plans to send two of it's active members to GAA camp this summer.

FTA

This was the year that the FTA received a new sponsor. Under the guidance of Mr. Essig, these future teachers carried on their first money-making project, a swimming party. This organization's main activity was providing an opportunity for the juniors and seniors to teach in the high school, junior high, and both elementary schools. This activity gave them "first hand experience" which may inspire them to study harder during their years of college training.

Several high school kids seem to be enjoying the many and varied activities of all-school party sponsored by FTA for one of its activities.

Activities

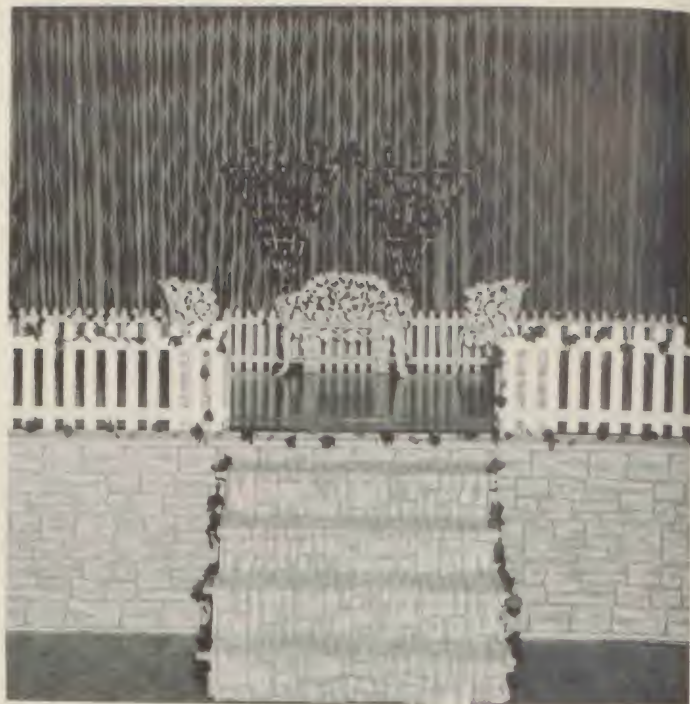

Roses, Rainbows and You.

Candy, isn't this the second nicest prom you have attended?

Nancy, Phil, Paula, and Rick decide to sit this dance out and discuss the great job they did on decorations.

The Juniors worked long and hard to create marvelous scenery for everyone to enjoy.

Everyone enjoyed dancing under the rainbow ceiling.

Junior-Senior Prom

Red roses adorn the white picket fence on the stage where Bobby and Cathy go to have their pictures taken.

Cindy, Mike, Kathy, and Denny study the wide choice of food.

Penny and Connie make their wish as Jerry and Danny look on.

Music was furnished by the "Bill" Oetzel band. They were enclosed in a white picket fence with red roses.

Freshman Officers

The Freshman activities this year were highlighted by a bake sale, a Hobo Day, and a dance after a basketball game. Even though the Freshmen are limited to minor projects, these three activities took a lot of effort. The year's end was celebrated by a class party which was enjoyed by everyone. The Freshmen participated in swimming, volleyball, basketball, and dancing.

Sophomore Activities

Having completed one year of high school the sophomore class feet now planted firmly on D-W soil, were determined to make their sophomore year one they would never forget. Their first activity was a bake sale followed by picking up corn, a sweatshirt sale, and a ticket sale for the Senior Barbecue.

Junior Activities

The Junior Class initiated the new school year with the production of Betty McDonald's "Onions in the Stew." Shortly after this, they began their rigorous campaign to raise the necessary money needed to finance their senior trip. Bake sales, a magazine drive, management of the concession stand at basketball games, a Christmas tree sale, and the annual Junior-Senior Prom were among the many activities the Juniors sponsored.

Time out for a party!

Are These Our Seniors? ? ?

Maybe you boys ARE hungry, but there's always the school lunch program.

I'm sorry, Mrs. Essig, but your husband has already eaten your share and the children's too.

And if you say our coffee's cold once more, I'll hit you again!

Senior Activities

Just between us, I think we'd better throw it out.

Don't ask how you look, Connie. I told you before I began that anything would be an improvement.

Yes, that's right; we get 25% of the profit!

The hip bone connects to the leg bone, the leg bone connects to the ---hey! Where is the leg bone? Mr. Essig?

I dreamed I was a football player in my ---.

Would you still rather fight than switch?

Too many chiefs and not enough Indians?

Class of "66" Graduation

Forty-four nervous members of the Class of '66 smothered in their maroon robes as they gladly accepted their diplomas and ended their student careers at DeLand-Weldon. Six brave members performed musical solos and speeches before an audience packed in the high school gymnasium. After the exercises, friends, relatives, and parents congratulated the proud seniors and wished them the best of luck in the future.

Senior Trip

Climb aboard, Class of '66 for a trip you shall never forget.

Gettysburg--a large, interesting, and historical battlefield of our Nation.

The number "6" has memorable meaning for forty-two members of the senior class and their four chaperons, Mr. and Mrs. Erickson, Mrs. Leischner, and Mrs. Fisher.

On the 6th day of the 6th month of the 66th year at 6 o'clock a.m., they departed for Washington, D.C. They were gone 6 days and saw many fun and meaningful sights of the Nation which made every bake sale and concession stand worth their work.

Restfully waiting in line to see the Executive Mansion.

Entering the White House.

The changing of the guard at the tomb of the Unknown Soldier in Arlington Cemetery.

The grave of President John F. Kennedy.

The class at Luray Caverns, Virginia, a beautiful and amazingly old place where rock formations have formed for millions of years.

This page sponsored by MAX E. SWARTZ, Farmer City.

A long trip, a tired crew, and many memories of friends and fun.
